

# Parents Evenings

Well today officially marks the halfway point of Term One! I have no idea where those first few weeks have gone, but everyone is really getting settled into their new routines now and so we are very much looking forward to having our first “meet and greet” parents’ evenings of the year. This will be an opportunity for you to meet your child’s class teacher via Teams or in person, to see how they are settling into the new school year.

So if you haven’t done so already, please do book a time and we are looking forward to saying “hello”.

# Rainy Day Baking

What better way to spend a rainy afternoon than to bake chocolate chip muffins and chocolate brownies for our morning snack time?

# Science in Sycamore

Sycamore Class have been learning about asexual reproduction in plants this week and they are closely monitoring the changes in their spring onion investigations! Having completed their science information posters, they have also made some flowers in art to enhance a class display of their work.

# Science

**Oak Class have been investigating the effects of friction on different surfaces, for example, how much friction each surface created for a moving toy car. Pupils measured the distanced travelled on each surface to evaluate the amount of friction.**

**JEANS FOR GENES**  
MON 18 - SUN 24 SEPT 2023

*Nice work  
#TeamDenim!*

*We wore our jeans,  
did a little fundraising  
and raised...*

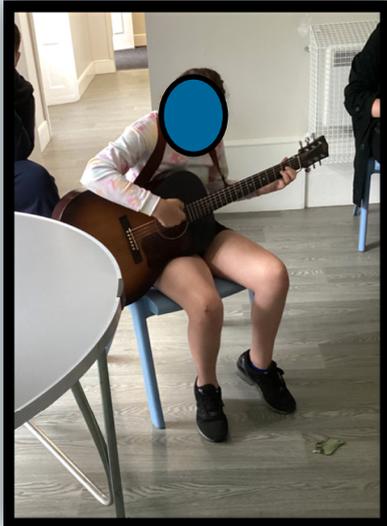

**£ 20**

*Well done everyone  
- you're brilliant!*

# Guitar Taster Meet and Greet

**Chris came in this week to meet all of the pupils that thought they might want to learn how to play the guitar. There was an amazing vibe in the school hall and a very positive response.**
