

Careers

Elm Class considered the different qualities that people need for their chosen careers this week.

Work Experience

One of our students has begun work experience at a local record shop and another is continuing to develop his skills and experience at Railworld in Peterborough.

We are continuing to explore how this offer can be extended and are talking to students regularly about their career aspirations.

History

As part of their Stone Age studies, Palm Class made models of Stonehenge which not only looked amazing, but tasted delicious, and designed and built Stone Age cars.

In their History lessons, Elm Class have been researching historical heroes.
